

Career Coaching for Undergraduates

You have worked hard to get to university and you will have a degree, but what then?

Don't know what you want to do after?

Why not invest in yourself a bit more, and take some time to explore what could be right for you?

Have you ever spent any quality time really thinking about what you could do? Or what you would like to do?

You will spend a lot of time at work, so make sure that it works for you!

Our coaching programmes provide time and structured activities to draw out your strengths and successes and help you use these to plan for the future.

You will come away with a checklist you can use to help you score a "good-fit" job.

This programme works as individual 1:1 sessions or with small groups.
